

~ Comments about Moab MUni Fest 2005 ~

I can't believe I'm actually back at home. Why did I leave? ... What a weekend.

PS Rolf, THANKS a million.

I had a fantastic time--big thanks to the Thompsons for organizing the weekend and to everyone we ended up riding with. There were too many people there to meet everyone; but I really enjoyed hanging out with those we did!

MMF is the undisputed king of unicycle events. As always, outstanding riding, incredible scenery, and great companionship. Thanks to everyone I rode with; I only wish I could have ridden with more of you. Next year!

Awesome organization of the event again by the Thompsons!

Cheers.

I'm still stunned by how good this festival was. Re-entry into worklife today was H-A-R-S-H. I wanted to run away screaming, but found the best I could manage was a limp and a grunt. Time for more Advil. .... and biggest thanks to Rolf and Janeen for continuing to organize the best weekend on one wheel. Can't wait for next year...

I totally agree with Tom, I didn't know how much happier I was in Moab until I got back and had to go to work. I feel so revitalized. I'll be living off of Moab jazz for a while... I look forward to many more events like this, as long as people like Rolf are still enjoying putting them together.

I had such a great time and met so many great people - Michael Grant (a great travel buddy and co-driver), Nick Brazzi, the Hotrums, Ed Hansen, John Payne, Mike from Black Hills, Jake from Rapid City, Catboy, and Daniel from Hawaii, to name just a few. Thank you so much to Rolf and Janeen for organizing the weekend so well!!
